

MATHATHON®

Dear Educators,

Thank you for signing up to participate in the St. Jude **MATH-A-THON** program. The services listed below are just a few ways your fundraising supports the patients of St. Jude Children's Research Hospital®.

Also, our team has made a change in the delivery of the student sponsor forms for **MATH-A-THON**. In your Volunteer Coordinator Guide, it mentions that you will order the Sponsor Form Envelopes with your **MATH-A-THON** Funbooks (Step 4 on page 7). However, for your convenience, we have included the Sponsor Form Envelopes with this shipment. This will allow your students more time to gather sponsors while they are waiting on their Funbooks. And, if your students want to start their **MATH-A-THON** right away, remind them that they can go sign up at <http://www.mymathathon.org>, create their own fundraising page and access the online version of the **MATH-A-THON** Funbook.

If you have any questions, please contact our Coordinator Support Team at 1-800-FUNBOOK (386-2665).

Thank you for supporting St. Jude Children's Research Hospital.

Sincerely,

St. Jude **MATH-A-THON** Team

OUTPATIENT VISITS let children spend more time with family.

The less time a child spends in the hospital the better, so St. Jude strives to perform as many outpatient treatments as possible – including blood tests, x-rays, ongoing monitoring and more. Your gift can help give a day of vital outpatient care to a child.

Day of outpatient care = \$2,446
Half-day of outpatient care = \$1,223

CHEMOTHERAPY a step toward a cure.

St. Jude advances have helped increase the effectiveness of chemotherapy and reduce the side effects for young patients with leukemia and solid tumors. Your gift could help save a life.

Three days of IV chemotherapy treatment = \$2,313

A DAY OF INPATIENT CARE can make a crucial difference.

Give a gift that helps provide a day of inpatient care, which could include surgery, a bone marrow transplant, high-dose chemotherapy and other innovative and lifesaving treatments.

Day of inpatient care = \$5,593
Half-day of inpatient care = \$2,797

When you make a donation, it will be used to provide breakthrough research, treatment and cures. Items shown are representative of services and supplies that are part of the treatment and care of children at St. Jude. The cost of each item or service is an approximation and will vary based on actual costs incurred and individual patient needs. Your donation will be used for the general operating needs of St. Jude, where no child accepted for treatment is ever turned away because of the family's inability to pay.
