PLEASE SPONSOR ME IN THE ST. JUDE MATH-A-THON.

I'm participating in the St. Jude *Math-A-Thon* program and I need your help. The *Math-A-Thon* program allows me to use my math powers and help the kids of St. Jude. I get a Funbook that is filled with math problems provided by Scholastic. You can sponsor me by donating $10, $20 or more as I complete the Funbook. You are helping me help St. Jude continue its mission of finding cures and saving children with cancer and other serious childhood diseases.

WHO YOU HELP

When 5-year-old Max was found to suffer from acute myeloid leukemia, his family was devastated. But when his mom, Tosha, learned he was being transferred to St. Jude Children's Research Hospital for treatment, she felt relief. Tosha was familiar with St. Jude because of her oldest son Ty's involvement with *Math-A-Thon*, a free, education-based program for grades K-8 that benefits St. Jude.

"The first year Ty participated, I explained to him what St. Jude does," Tosha said. "He really wanted to help raise money, and he raised more than $500."

At St. Jude, doctors started Max on a chemotherapy protocol.

Today, he is finished with treatment, and returns to St. Jude for regular checkups.

WHY PARTICIPATE?

- *Math-A-Thon* allows you to help desperately ill kids at St. Jude Children's Research Hospital® by raising money for research and treatments.
- St. Jude depends on donors to ensure that families never pay for treatment not covered by insurance, and no child is ever denied treatment because of the family's inability to pay.
- The daily operating cost for St. Jude is $1.6 million, and public donations provide more than 70 percent of our funding.
- St. Jude has treated children from all 50 states and from around the world.
- Approximately 29 children are diagnosed with cancer in the United States each day.
- Cancer kills more children each year in the U.S. than any other disease.

With the money raised from *Math-A-Thon*, St. Jude is able to help kids like Max.
